

Austrian Lotteries

Rennweg 44
1038 Wien

© Rita Newman

Type of project: Sport- / Recreational- / Eventcenter

Segment: Renovation

Product group: ARDEX S 28, ARDEX A 35, ARDEX 8+9, ARDEX G8S

If you enter the new headquarters of Austrian Lotteries you set a foot on quality handiwork from ARDEX. The whole entrance area and the event location 'Loft' were completely redesigned.

Several products of the ARDEX assortment were used on the overall 400 m² surface. To reach a perfect result, the headquarter was equipped with ARDEX S 28 (specializing in laying big slabs), ARDEX A 35, ARDEX 8+9 and the grouting compound ARDEX G8S. Graphite-coloured tiles of the Concrete-series produced by GigaChair were laid on these 4.8 mm thick 1.20 x 1.20 m slabs.

Responsible for the professional execution was the company Sturgyk who is an established partner of ARDEX. The Result? See for yourself!
