

1 OCT 2026

To whom it may concern,

Subject: Official Notification of Product Name Transition – ARDEX F 4 to FG 4

Dear Customers and Business Partners,

We are pleased to inform you that **ARDEX F 4 will be renamed ARDEX FG 4** under our **Regional Product Rationalisation Initiative**.

This initiative aligns product names across the region, making products easier to identify.

From **1 October 2026**, **ARDEX F 4 will be renamed ARDEX FG 4**.

The **formulation and colours and packaging, pack size remain the same**, as do the product's application, performance and quality standards.

Transition Period

During the transition, products in existing **ARDEX F 4 packaging** may still be available until stocks are used up.

Existing **ARDEX F 4 products remain valid for sale and use**. Related test reports, certifications and technical documents will also remain valid for their stated periods, where applicable.

The transition will be shown as:

ARDEX F 4 → ARDEX FG 4

Product Name Transition under the Regional Product Rationalisation Initiative

During the transition, product specifications, technical literature and marketing materials may use the following reference:

ARDEX FG 4 (Product Name Transition from ARDEX F 4)

This wording ensures continuity for existing specifications, approvals, project references and documents that use the ARDEX F 4 name.

Thank you for your understanding and support. For questions or supporting documents, please contact our Sales or Technical team.

Thank you for your continued partnership.

Yours sincerely,

For and on behalf of ARDEX-QUICSEAL

Emily Ng

Regional Product and Marketing Manager
